

CleanPack custom cleanroom packaging and irradiation services

In ISO 5 and ISO 7 cleanrooms certified to ISO14644-1 we handle and customise products complying with the highest standards to meet your special requirement:

- Cleaning of products that were not cleanroom compliant and packaging for use in cleanrooms
- Customising existing cleanroom products to adapt them to your individual needs, e.g. sterilization service, re-packaging of bulk products in smaller packing units or sizes, packing of single items to bulk packages, assembly of kits ready-to-use
- We guarantee reliable supply and consistent quality at transparent cost
- QMS implemented in compliance with ISO9001:2015
